

## KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Raiffeisen chráněný fond ekonomických cyklů, otevřený podílový fond, Raiffeisen investiční společnost a.s.** (hereinafter the “Fund”)

**ISIN: CZ0008474038**

The Fund represents a special collective investment fund.

The Investment Company that manages the Fund (the Management Company):

Raiffeisen investiční společnost a.s., Registered Number (IČ): 29146739 (hereinafter also the “Company”).

### OBJECTIVES AND INVESTMENT POLICY

The Fund attempts to retain 95 % of the value of investments, including appreciation attained in the past (the “preserved value”) in set 3-year periods (a “monitored period”). If, during any monitored period, the value of a unit rises by at least 2 % compared to the value at the start of the monitored period, a new monitored period will be set up with an appropriately increased preserved value. The value of a unit at the end of a monitored period cannot be lower than the last preserved value.

The Fund is construed as a mixed fund, the Fund invests primarily in bonds with a rating of no less than investment grade issued by the Czech Republic or Czech National Bank, an OECD member state or its central bank, an international institution or other entities. Part of the assets will be invested in equity instruments around the world. The fund does not concentrate on a specific industry, sector or region. The performance of the Fund is measured in CZK. The Fund is managed actively and does not copy or follow any specific index or indicator. The Fund is a capitalization fund.

The representation of individual instruments is actively managed using the CPPI method (Constant Proportion Portfolio Insurance). Put simply, the Fund’s portfolio is

divided into two elements—dynamic and conservative—and the ratio between them is adjusted in ongoing fashion so that the value of a unit does not fall below the set limit. The company cannot guarantee the achievement of the Investment aim and no third party guarantees for the purpose of protecting investors are provided. The success of protection of the invested capital is primarily dependent on the ability of bond issuers and counterparties to meet their obligations. The Fund may invest in derivatives and it may also apply such derivatives for hedging purposes. According to the AKAT classification, the Fund represents a ‘structured fund’ of the CPPI sub-category that offers less than 100-percent protection to invested capital. Further information is specified in Chapter 8 of the Fund Prospectus.

Fund units are issued and redeemed usually on each business day for the current value set in accordance with the Fund Prospectus. Further information is specified in Chapter 12 of the Fund Prospectus.

Recommendation: The Fund may not be suitable for investors planning to recover their invested pecuniary funds within a term shorter than three years.

### RISK AND REWARD PROFILE

← Potentially lower reward			Potentially higher reward →			
← Lower risk			Higher risk →			
1	2	3	4	5	6	7

The Fund is placed in Risk Group 3.

The Synthetic Indicator 1 to 7 takes into account the fluctuation of the value of the units and shows the potential reward of investments in relation to the degree of risks inherent in the Fund. The higher the number, the higher the potential reward but the less foreseeable the reward, and investors could therefore suffer a loss. However, even the lowest number does not mean that an investment is entirely free of any risk; it rather indicates that in comparison to higher numbers the investment offers a lower but more foreseeable reward.

The indicator value was determined based on historical information, which is not always a reliable guide when it comes to the future risk profile of the Fund. The risk and reward indicator is regularly re-assessed and its value can fluctuate up and down.

The risks an investor undertakes when investing in this fund are linked in particular to non-compliance with obligations by bond issuers or counterparties in the fund’s portfolio.

The value of investments can rise and fall. No return on such investments is guaranteed. More detailed information is available in Chapter 9 of the Fund Prospectus.

## CHARGES

<b>One-off charges taken before or after you invest</b>	
<b>Entry charge</b> (a surcharge paid by investors from invested amounts)	<b>up to 2 %</b>
<b>Exit charge</b> (a deduction of the redeemed amount)	<b>0 %</b>
This is the maximum amount that might be taken out of investors' money before it is invested or before the proceeds of such investments are paid out. In some cases the charge can be lower or zero. Details about the current amounts of entry and exit charges can be obtained from your financial advisor or distributor, or at <a href="http://www.rfis.cz">www.rfis.cz</a> .	
<b>Charges taken from the Fund over a year</b>	
<b>Ongoing charge</b>	<b>0.64 %</b>
The ongoing charge covers charges and other payments taken from the Fund assets in respect of the previous financial year ending 31 December 2016 (such costs are reflected in the performance of the relevant investment; they are not charged directly to investors). These figures may vary from year to year.	
<b>Charges taken from the Fund under special conditions</b> (the costs reflect in the performance of the relevant investment, they are not billed directly to investors)	
<b>Performance fee</b>	<b>up to 20 % of the profit</b>

The aforementioned charges and costs are used, inter alia, to cover the costs of the fund's operation, including any costs of public offerings and promotions, and reduce potential investment growth. You can find further information about charges and costs in Chapter 14 of the fund's prospectus.

## PAST PERFORMANCE

The determination of historical performance is based on the Fund net asset value and on the assumption that all Fund yields will have been re-invested. Any information on the historical performance of the Fund does not serve as an indicator of future performance. The determination of the Fund historical performance incorporates all and any fees and costs paid from the Fund assets, with the exception of any potential entry and exit fees (surcharges and deductions) related to the issuance and redemption of the Fund Units. The Fund has existed since 2013. The Fund performance is measured in CZK. More detailed information is available in Chapter 10 of the Fund Prospectus.
