### **Raiffeisen fond dluhopisové stability, otevřený podílový fond, Raiffeisen investiční společnost a.s.**

(Raiffeisen bond stability fund, open-end mutual fund, Raiffeisen investiční společnost a.s.) (hereinafter the "Fund")

Class A1 – Capitalisation	Class A2 – Dividend	Class A3 – RSTS
ISIN: CZ0008474293	ISIN: CZ0008474301	ISIN: CZ0008474319

The Fund represents a standard securities fund.

The Investment Company that manages the Fund (the Management Company): Raiffeisen investiční společnost a.s., Registered Number: 29146739 (hereinafter also the "Company").

### OBJECTIVES AND INVESTMENT POLICY

The characteristics of the Fund are that of a bond investment fund. The object of the Fund is to achieve regular yields by way of investments primarily in bonds, money-market instruments, and bond funds denominated in CZK and issued – inter alia – by governments, supranational institutions or entities with high credit ratings. To a smaller extent, portions of the assets may be invested in some selected foreign currencies. It is within this strategy that the Fund may invest in financial derivatives potentially serving currency hedging. Up to 100 % of the value of the assets of the Fund can be invested in investment securities and financial market instruments which were issued or which are guaranteed by the Czech Republic. More detailed information is available in Chapter 8 of the Fund Prospectus.

The performance of the Fund is measured in CZK. The Fund is actively managed and it does not intend to copy or follow any specific index or indicator.

The Company cannot guarantee the achievement of the investment aim and no third party guarantees for the purpose of protecting investors are provided.

Fund units are issued and redeemed usually on each business day for the current value set in accordance with the Fund Prospectus. Further information about unit issues and redemption is specified in Chapter 13 of the Fund Prospectus.

The Fund issues various types of units designated as Classes A1, A2 and A3. Class A1 and Class A3 units represent capitalisation classes and Class A2 units belong to the dividend class. More specific information about the various unit classes will be specified in the CHARGES section of this statement and in Chapter 14 of the Fund Prospectus.

Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within a period shorter than two years.

### RISK AND REWARD PROFILE

← Potentially lower reward			Potentially higher reward →			
← Lower risk			Higher risk →			
1	2	3	4	5	6	7

The Fund is placed in Risk Group 2.

Synthetic indicator 1 to 7 takes into account the fluctuation of the value of the units and show the potential reward of investments in relation to the degree of risk inherent in the Fund. The higher the number, the higher the potential reward, but the less foreseeable the reward, and investors could therefore suffer a loss. However, even the lowest number does not mean that an investment is entirely free of any risk; it rather indicates that – in comparison to higher numbers – the investment offers a lower but more foreseeable reward.

In view of the date of the establishment of the Fund, the actual historical values of the units cannot be used, so the calculation is based on modelled trends based on the expected placement of assets. The value of the indicator is set on the basis of past

data, which do not always provide a reliable guide as far as the future risk profile of the Fund is concerned. The risk and reward indicator is regularly re-assessed and its value can fluctuate up and down.

A typical investor should be aware of the risks associated with investments in bonds, money market instruments and other instruments bearing the risk of bonds (including but not limited to credit, interest, foreign-exchange and concentration risk) and should be prepared to accept the risk of possible loss resulting from the investment.

The value of investments can rise and fall. No return on such investments is guaranteed. More detailed information is available in Chapter 9 of the Fund Prospectus.
